

GRACE

When you look at souls that departed prematurely, is it because they made wrong choices? No. Some tried as much as they could to hang on but they couldn't. Others tried all means to survive but things didn't just work out. And now you realize that grace is choosy, it located you. So when talking about the people who died, be very careful on your words. Just because things are working well on your side, don't think you're better than the rest. No, Jesus Christ chose you, so do something that can build HIS body.
